The staff of the 1969-70 ROAR dedicates this annual to the building of school spirit in the hope that the Lion's roar may be heard louder than ever.

ADMINISTRATION

David M. Dailey

Superintendent

Each of you have been given a part of your total education this year - no greater gift may be given to you in your youth than knowledge and the ability to use it wisely. Use your newly acquired knowledge as a building block to stand on and reach ever higher in the years to come.

I am honored to have had a small part in the giving of this gift.

Sincerely,

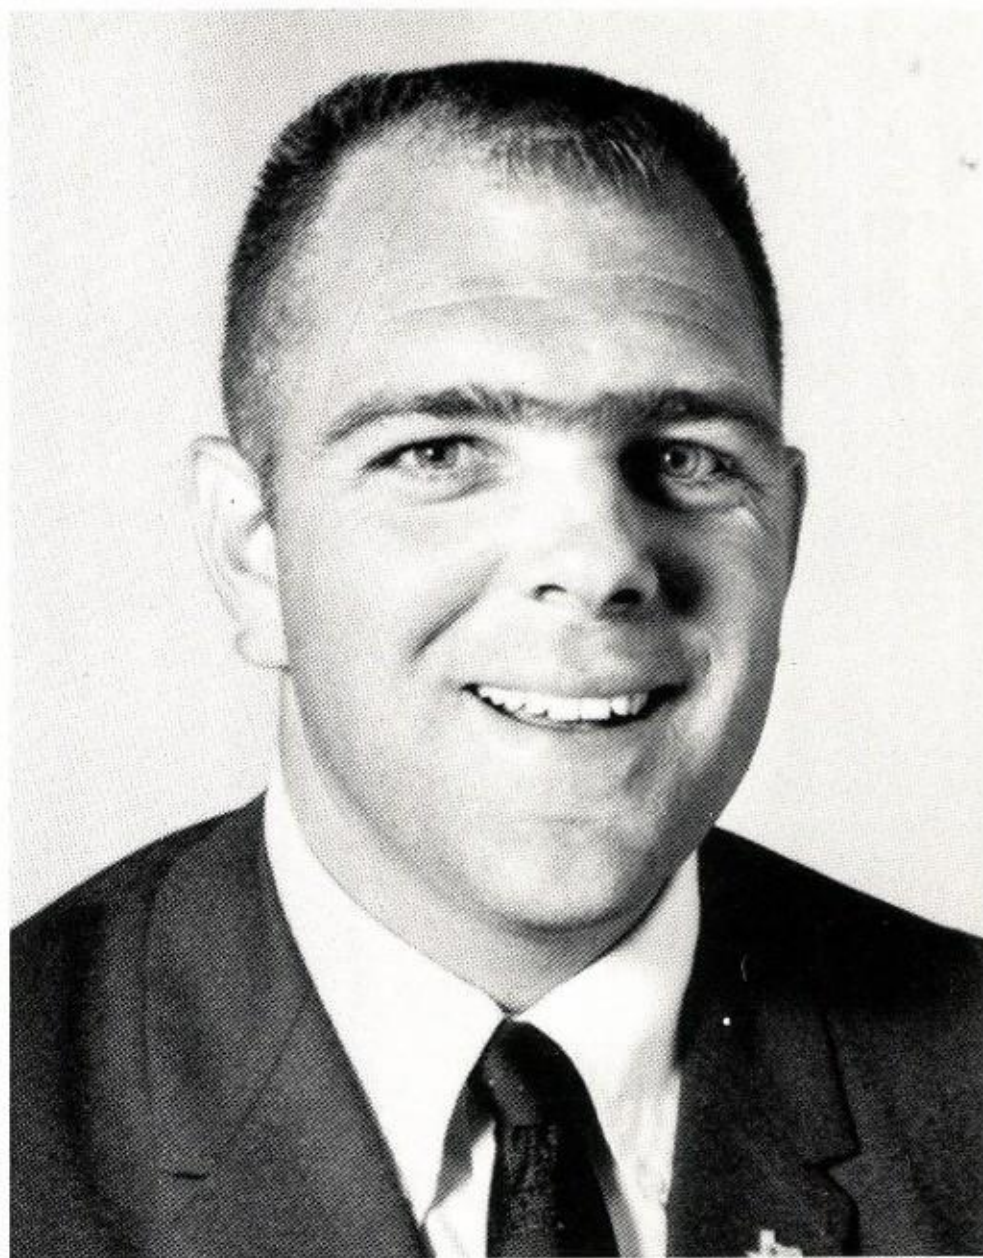

David M. Dailey

Mr. Dailey at his desk.

W. T. Garland

Principal

TO THE STUDENTS AND FACULTY OF NEW DEAL HIGH SCHOOL:

As you are reading this message we are approaching the end of another school year. It has been a very trying year, but we have unified ourselves and have overcome many obstacles together. May I take this opportunity to thank each of you, students and faculty, for your contributions toward making this a successful year.

As graduation nears we must look ahead. As you look into the future may I ask you a question, "What are you here for?" Jesus Christ whom most scholars agree had more influence on the history of the world than any other person said: "I am come that they might have life, and that they might have it more abundantly."

He knew for what purpose he came. Do you ever ask yourself, "What did I come here for?" Shame on the man who says he has no mission; who says he came here without his consent. That kind of logic makes it justifiable to take him out of the world without his consent, too.

There's plenty to do in this world. People are hungry. People are without vision. People are groping in darkness. People need leadership. Perhaps you are not sure what it is you want to do. Many a man has trained for one field and achieved eminence in another. That's all right. A man with his eyes open sees things which a man with his eyes closed does not see.

In all the exciting opportunities and in all the great human needs, there is need for dedicated men and women. There is a place for you. You came into the world for something worthwhile. The surest way for you to find it is to start serving at every opportunity. You have an example to follow. Are you willing to pay the price?

Always your friend,
W. T. Garland

New Deal's Top Ten

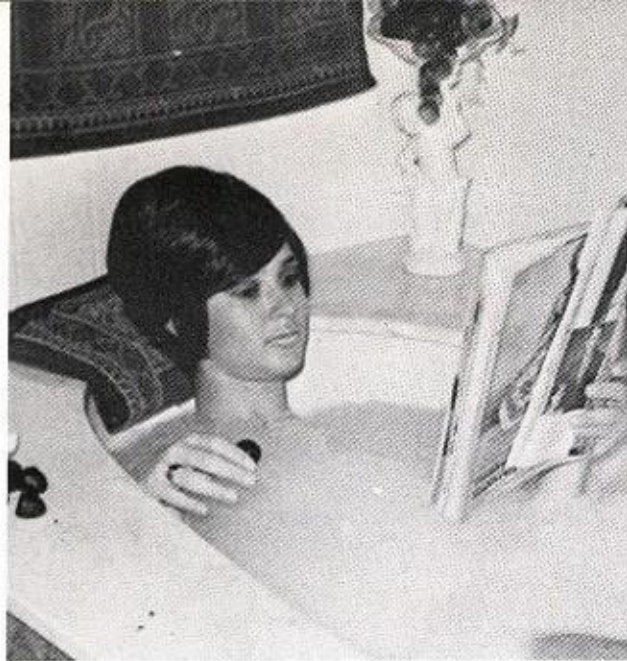

Without leaders there would be no followers, and without either there would be nothing to follow. Therefore, New Deal's Top Ten fulfill the demands for student leadership. Proving that variety is the spice of life, the ten honorees divide their school time among such diverse areas as Student Council, organizations, and competitive athletics.

Chosen on the basis of scholarship, citizenship, leadership, and service, the honorees are selected by the faculty.

Departmental Awards

The departmental awards are given each year to the students at New Deal High who best show the qualities of leadership, excellence in grades, and ability to achieve above and beyond the usual assignments.

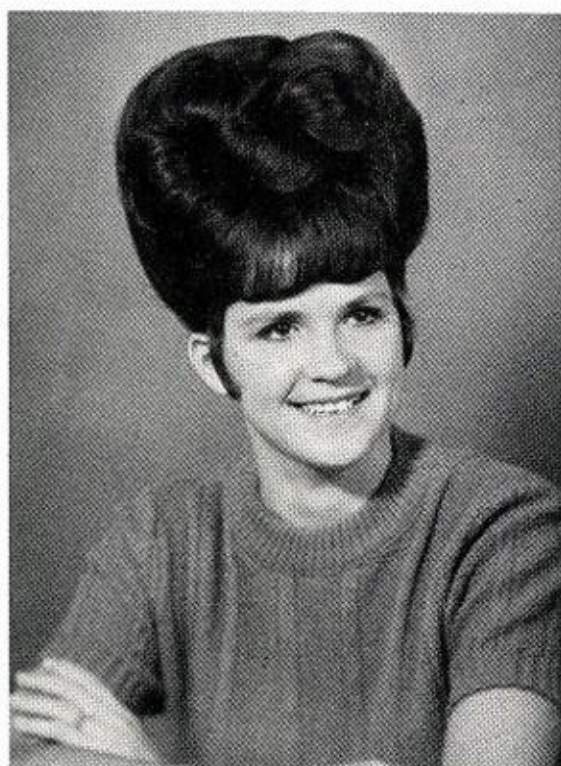

These students often go unnoticed by the general population of the school; it is their presence in each class, however, which makes teaching worthwhile.

Foye Flood

Principal

May I take this opportunity to express my appreciation to you, the student body, for a most rewarding year - one in which much has been accomplished. A sense of accomplishment must be felt by the strides you have made in growth and development this year.

Congratulations to those who are to depart our student body with a sincere wish for you the best the future has to offer. May I challenge you to continue with your education whether a student at New Deal or entering into your chosen endeavor in life.

Sincerely,
Foye L. Flood

In Conclusion . . .

We started the year with just a mere beginning - a staff, a triplicate, and an idea - that was all we had to transform into a book. Although this year has ended, memories of the good, the bad, the serious and the humorous return time and time again to remind us of our days at New Deal. All the long hours are over and the last deadline has gone to press, all that remains is a staff with mixed emotions.

Each staff member has spiced this book with his own personality and in turn colored it with devotion, pride and enthusiasm. For senior staff members it brings mixed emotions: The thrill of seeing the product of a school year's efforts, tenseness that comes as the first shipment arrives, and sadness that seems as traditional as graduation. To our staff, which we will never forget, we offer our deepest gratitude.

And to you, the Lions who were in '70 and to all those who helped, we say thank you. Now our job has ended and what was our plan is your book.

'70 Annual Staff

PIONEER NATURAL GAS

GAS WILL POWER THE FUTURE

Imagine a small cabinet-size unit in your home that produces all the electricity you need. Well, such silent, efficient Gas fuel cells already exist and have proved themselves in actual operation. They are the same in principle as those now powering our spacecraft. Research is proving that the most economical way to produce energy is to convert piped Gas at the point of use. But that isn't surprising because Gas is almost pure energy.
